

Release our potential

Personal message

I have stood in elections here since 1992 and in 1999 came second to the Liberal Democrats. I am no career politician, but came to politics late after years as teacher, mother and lawyer. I now have 4 years' experience as a politician and convener of the powerful Justice committee and ask to be judged by my record. I now seek your vote to end years of ineffective Lib/Dem rule. It is time for change. It is time for a strong independent woman.

“I don't agree with her politics, but she has put up a damned better fight on behalf of the Borders than the two Lib Dem MSPs put together”.
